

Architectural Specifier

Post Date: Tuesday, January 15

Job Title: Architectural Specifier

Organization: Aerotek: Architecture & Engineering

Description: An architectural team in the Minneapolis/St. Paul area is searching for a Specifications Writer. The ideal candidate has 8+ years of specifications experience and is comfortable performing quality checks for specifications and drawings. CCS/CSI certification is strongly desired. In addition, candidates must have a strong working knowledge of specifications-specific software, and will be able to implement and manage the software for the team. The right candidate can interview and start immediately.

Salary: Based on Experience
